

### PICKING UP AND DROPPING OFF PEOPLE – KISS-AND-RIDE AREAS

Both parking East (Oost) and parking West have a kiss-and-ride area.

You can (briefly) leave your care behind to accompany a patient to the hospital or to pick him up. Long-term parking (more than 30 minutes) is not allowed.

There are **wheelchairs** in the parking and at the entrance.

For patients with walking difficulties there is a kiss-and-ride area at the reception hall of entrance East (Oost). You can stop here for five minutes.

### EMERGENCY ROOM

Follow the arrows to the emergency room ('Spoed') and enter the parking to the ambulance hall of the emergency room. The gate will open as soon as you arrive.

Drop off the patient at one of the designated parking spaces at the entrance of the emergency room.

Once you have done this, please park your car as quickly as possible in the emergency room parking. The parking ticket you received upon entering will automatically give you access to the care rate (activation is not necessary). If you leave within 30 minutes, you do not have to pay.

### Do you have an appointment at the surgical outpatient clinic, the oncological outpatient clinic or the kidney centre?

These departments have separate parking arrangements. You can get more information at the departments involved or talk to the front desk staff at entrance East (Oost) and entrance West.
