INVITATION

**ESD AND ADVANCED RESECTION
TECHNIQUES IN THE
GASTROINTESTINAL TRACT**

26 & 27 August 2021

University Hospitals Leuven campus Gasthuisberg,
Herestraat 49, 3000 Leuven, Belgium

Dear colleagues,

We would like to welcome you to our hands-on training in ESD and advanced resection techniques in the gastrointestinal tract in Leuven. ESD techniques are increasingly being used in Europe with a growing need for intensive individual training. We have developed a training program to manage endoscopic submucosal dissections in a realistic environment using living pig models. With this program we aspire that you will acquire the necessary expertise to handle ESD in the oesophagus, stomach and colon.

On Thursday morning we will start the workshop with a state-of-the-art theoretical lecture about treatment plans for lesions and technical tips and tricks. Hereafter we will start the hand-on training in the living pig model. We have the pleasure of outstanding ESD experts joining the course to assist you in a one-on-one training in the animal lab. This will be a unique learning opportunity for you.

The organising committee with Raf Bisschops and Ingrid Demedts and the guest faculty with Helmut Neumann (Mainz, Germany), Roberta Maselli (Milano, Italy), Dominiek De Wulf (Roeselare, Belgium) and Philippe Leclercq (Liège, Belgium) are looking forward to welcome you.

Reasons to attend the workshop

- **Two day workshop including state-of-the-art lectures, 11 hours of hands-on training with an ESD expert**
- **Fully equipped live porcine model workstations**
- **To acquire technical tips & tricks and technical skills for ESD**
- **To learn to treat complications related to ESD**
- **Case discussions**

Organising committee

Raf Bisschops
Ingrid Demedts

Guest Faculty

Helmut Neumann, Mainz, Germany
Roberta Maselli, Milan, Italy
Dominiek De Wulf, Roeselare, Belgium
Philippe Leclercq, Liège, Belgium

THURSDAY 26 AUGUST 2021

- 8:30 **Arrival and coffee**
- 8:45 **Welcome and outline of the program**
> prof. dr. Raf Bisschops
- 9:00 **State-of-the-art ESD technique: lifting solutions and treatment plan for lesions** > dr. Roberta Maselli
- 10:00 **Principles of electro-surgery for ESD**
> prof. dr. Helmut Neumann
- 10:30 **Coffee break**
- 11:00 **Hands-on training in the animal lab** > all
- 13:00 **Lunch**
- 13:45 **Prevention and management of complications: bleeding, perforations** > prof. dr. Helmut Neumann
- 14:15 **Hands-on training in the animal lab** (with coffee break)
- 17:45 **Adjourn**
- 19:30 **Dinner**

FRIDAY 27 AUGUST 2021

- 8:30 **Arrival and welcome**
- 8:45 **Prevention of strictures for large oesophageal ESDs**
> dr. Dominiek De Wulf
- 9:30 **Hands-on training in the animal lab** (with coffee break)
- 13:00 **Lunch**
- 13:30 **Hands-on training in the animal lab**
- 15:30 **Coffee break**
- 16:00 **Interactive case discussion**
Tips and tricks to facilitate ESD
Morbidity round: bleeding, perforation
> prof. dr. Helmut Neumann, dr. Roberta Maselli, dr. Dominiek De Wulf, dr. Philippe Leclercq, prof. dr. Ingrid Demedts, prof. dr. Raf Bisschops
- 17:00 **Q&A and summary of take-home messages**
> prof. dr. Raf Bisschops
- 17:30 **Adjourn**
